

## RONYAK PAVING

"*Verify!* gives us peace of mind and really allows us to focus on our business. We don't have the time and expertise to go through our bill each month, line by line. The time we have saved by working with *Verify!* has been just as valuable as the savings they found for us."

- **Rick Coan**, CPA, MBA  
*CFO of Ronyak Companies*  
*Crain's CFO of the Year*

### SERVICE PROVIDED:

Cellular Account Analysis

### RESULTS:

## THE CHALLENGE

The client was referred to *Verify!* by their Certified Public Accountant, with the intention to reduce the expense of the client's business cellular account.

*Verify!*'s focus during the comprehensive audit was to work within their current contract to find cost saving opportunities while also optimizing their cellular services.

## THE SOLUTION

*Verify!* provided the client with a full inventory of their cellular account, including a service utilization report. The detailed analysis included several cost saving recommendations, all of which allowed the client to maintain their current wireless provider.

The client was able to make well-informed decisions regarding which cost saving and service optimizing changes would best support the goals of their business.

The client-approved recommendations were fully implemented by *Verify!*, and cost reduction was verified on their next wireless invoice. All savings fell directly to the client's bottom line.

## THE ADDED VALUES

The client chose to convert from a one-time analysis to an ongoing client in order to gain:

- Increased internal operational efficiency | Device ordering and management
- Monthly wireless invoice review | Proactive notifications of cost saving opportunities
