

The team at Verify has really helped us to streamline our billing process. Our staffing agency currently has 17 office locations in the greater Chicago region. That is a lot of bills and invoices to keep track of! Verify manages all the phone and internet accounts on our behalf, and ensures we're always getting the lowest available rates. They review our bills each month, and send us emails stating whether or not our bills are correct. This is before we even receive the paper copies in the mail from our service providers! This really assists our accounts payable department, and helps eliminate unnecessary confusion between our various offices.

To be the reliable, flexible and compassionate staffing partner our clients and employees deserve, we have moved and consolidated office locations over the years. Verify has also assisted us with installing, moving, and even disconnecting phone and internet services. They work directly with our outsourced phone and IT vendors, and contact our different offices directly. They really do a fantastic job of keeping everyone well informed and coordinated, so our moves and transitions are as efficient as possible.

Here at SURESTAFF, we are committed to delivering the highest quality workforce for our clients' individual needs. The dedicated team over at Verify Services consistently delivers for us with exceptional customer service. They have been a true pleasure to work with, which is why we are happy to refer their services to any business or office!

A handwritten signature in black ink, appearing to read 'David Mehr', is written over a horizontal line.
